

NEW!

Metal Shear 3515 - for really hard jobs

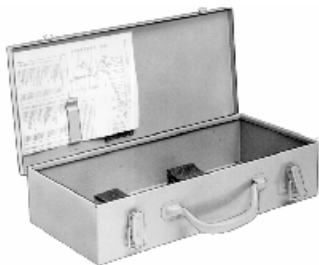

- cutting without distortion or straightening of formed parts
 - burr free cutting
 - no finishing of the edges is required
 - accurate cutting along a marked line
 - single-side trimming is possible
 - working speed up to 5 m/min
 - cutting of U-, C- and L-profiles
 - clear view to scribed line or template
 - long life tool
 - easy, one hand, operation
 - simple and safe to use
 - noise under limit regulations
 - an insulated and suppressed motor
 - **can cause no injury while in motion**
- **heavy duty metal-shear for cutting stainless steel**
 - standard knife for stainless steel (E-knife)
 - **the metal-shear for steel studs up to 2 mm, 14 ga.**
 - the ideal shear if cutting maximum thickness in continuously operation
 - stationary cutting in a vice possible

Catering Equipment

Refrigeration & Cleaning Equipment etc.

Transport Box 18000

special for:

- stainless steel workshops
- kitchen and cabinet workshops
- construction-plants for samples
- ship and boat builders, etc.

cut-outs from drilled starting holes 12-14mm

cutting of shaped parts

DRACO Profile Metal Shear		type	3515
max. cutting capacity		Art.no.	61063
steel	400 N/mm ²	mm/ga.	2,0 / 14
stainless steel	600 N/mm ²	mm/ga.	1,8 / 15
stainless steel	800 N/mm ²	mm/ga.	1,5 / 16
aluminium	250 N/mm ²	mm/ga.	3,0 / 10
tightest radius		mm/inch	200 / 8
working speed ±		m/min	5-7
strokes		min ⁻¹	2400
motor capacity		Watts	500
weight		kg	2
